Power Up Your Fleet

For over 20 years, we've stood by a simple truth: *simplicity isn't just smart — it's superior.*

EASY to operate
SIMPLE to maintain
MADE to last

Alpine SHUR GRIP Cart-Lift

That's why our mobile shredding equipment is purpose-built with fewer moving parts, reducing maintenance needs while maximizing reliability and performance in the field.

Our low-RPM, high-torque shredder assembly is designed to extend the life of hydraulics, pumps, gearboxes, and shredder shafts. Paired with high tip force and an aggressive hook profile, it delivers powerful throughput—even with the most compact, dense materials.

Our solid cutter shaft leads the industry in reliability—engineered to take punishment and keep shredding.

The result? A shred truck that's intuitive to operate, easy to maintain, and **engineered to last.**

Optional built-in Hard Drive Shredder (available on all models)

**PREMIUM PRO-GRADE FEATURES:
BUILT TOUGH. FULLY LOADED**

What others treat as optional, we deliver as standard. Every Alpine shred truck comes off the line equipped with pro-grade features meticulously designed for nonstop reliability and maximum output.

- /// Robust shredder assembly with solid cutter shafts
- /// Alpine ShurGrip cart lift system
- /// Remote curbside control with engine/PTO & shredder start/stop
- /// Moving Floor offload system
- /// Lower body; improved aerodynamics, & better fuel efficiency
- /// Low travel height and low center of gravity
- /// Heavy duty body construction
- /// Shred Load Detection fuel saver
- /// Galvanized steel deck and rear bumper
- /// Full vision system including safety backup camera
- /// Strobe lights
- /// OSHA compliant integrated operator safety system
- /// Operator Acknowledgement Test System
- /// Individual direct drive planetary gearboxes
- /// 3 Year Limited Shredding System Warranty
